2019 - 2022

WORK EXPERIENCE

Full Stack Developer

Hindustan Innovation Pvt. Ltd., Raipur, Chhattisgarh

Apr 2026 - Present

- Developed and deployed 2 full-stack mobile applications (React Native + Expo) live on both Play Store and App Store.
- Built and maintained backend services using Node.js, PostgreSQL, and Redis for multiple production apps.
- Worked across the complete lifecycle — API design, database schema, mobile UI, and deployment.
- Collaborated with the team to design scalable multi-service architecture for local service and e-commerce platforms.

Full Stack Developer

GS3 Solution Pvt. Ltd., Kolkata, West Bengal

Apr 2025 - Mar 2026

- Lead a development team to design and build scalable web applications using the MERN Stack.
- Collaborated with cross-functional teams to integrate AI-driven features improving system efficiency and user engagement.
- Managed full project lifecycle: design → development → deployment

Full Stack Developer Intern

Toscall Private Limited, Bhilai, Chhattisgarh

Sep 2024 - Mar 2025

- Learned and worked hands-on with the MERN Stack (MongoDB, Express.js, React.js, Node.js) on live projects.
- Assisted in building and testing REST APIs and front-end components under senior developer guidance.
- Gained foundational experience in Git version control, debugging, and collaborative development workflows.

PROJECTS

1. Karmanisht — Multi Local Service Provider App | karmanisht.com

Tech Stack: React Native, Expo, Node.js, Express.js, PostgreSQL, Firebase

- Built a multi-category local services marketplace app connecting users with various local service providers.
- Developed backend APIs with Node.js and PostgreSQL for bookings, service listings, and provider management.
- Live:** [Play Store](#) | [App Store](#)

2. Hindustan Mart — E-Commerce Platform | hindustaanmart.com

Tech Stack: React Native, Expo, Node.js, Express.js, PostgreSQL, Firebase

- Built a full-fledged e-commerce mobile app covering all product categories, from browsing to checkout.
- Implemented backend order, product, and catalog management using Node.js and PostgreSQL.
- Live:** [Play Store](#) | [App Store](#)

3. Edusathi LMS (Learning Management System) | edusathi.net

Tech Stack: MERN, Next.js, Tailwind CSS, Node.js, Express.js, MongoDB

- Built a multi-tenant SAAS LMS for schools, colleges, and institutes with course, batch, student, exam, result, and promotion management.
- Implemented complete academic lifecycle including enrollment, marks entry, result publishing, and live-wise student promotion.
